BETHEL HISTORICAL SOCIETY HEARS OF POWDER MILLS

Maine's powder mills, which played a vital role in supplying gunpowder for cannon and rifle during the American Civil War, were the subject of the meeting of the Bethel Historical Society last Thursday evening, Aug. 2, and attended by approximately 70 members and friends. Speaker for the evening was Dr. Maurice Whitten of Gorham, Maine, Professor Emeritus, University of Southern Maine, who for 20 years has been researching this topic. Dr. Whitten described each operation that once existed in Maine but focused particularly on the one at Gorham

which was largest and supplied approximately 20% of the powder used by Union forces. This mill site can still be identified with numerous foundation and sluiceways still in place. Dr. Whitten stressed that explosions were to be avoided at all costs so much care was taken in using wooden equipment as much as possible so as to avoid creating a spark that would trigger disaster. There were some explosions, however, which resulted

FROM THE bethel town office

The Board of Selectmen met in regular session Monday evening, Aug. 6 in the Town Office Meeting Room to act on a variety of agenda items. Several members of the public were present to discuss actions with the Board.

Airport Development Committee Chairman Jim Hudson reported that the Federal Aviation Authority had approved the Town's application to conduct a detailed environmental impact study of the Bethel Airport (Col. Dyke Field), which, if favorable, could prompt FAA this fall to fund the first phase of construction. With this background, the Board acted unanimously on two measures: (1) the Airport Development Committee was authorized to execute agreements of purchase and sale with private individuals/companies for six Town-owned lots at the airport should they fail to sell at public auction; and (2), the Airport Development Committee to solicit proposals for a consulting engineer. The hiring of an engineer to translate the Airport Master

Sent in by Viva Whitman:
What a hot and humid week this last one has turned out to be. I can stand the heat pretty good, but the humidity really gets me down.

I was glad to read in the paper that Raymond and Connie Tripp, have a baby girl. I know Connie wanted a girl to go with her two boys and it must have made her happy to get the girl she wanted.

It has been a busy week here after the yard sale a week ago. On Monday, it was time to pick peas again, so I went to help Russell all I could and we got them picked in good time; then I came home, typed my piece for the paper and went to work on them, shelling and getting them clean for freezing. Russell stayed at the garden and out the Swiss Chard and pulled weeds. I washed the Chard and froze a couple bags of that after blanching it. Each bag of food put in the freezer counts up as time goes on. Look like I had better start my sour pickles right away if I want the cucumbers small. They are starting to get big enough and they grow so fast once they get started.

Russell headed for the garden the next day too. There is enough to be done and he likes to keep up with it the best he can. Also, Wynona and Michael came from Lewiston and left Courtney with Grandma for the rest of the forenoon, which I didn't mind, and then stayed for lunch with us. We are always glad to have them or anyone else call and stay for a meal. Usually find something to eat.

In the afternoon, I went to work on my African Violets and set some into dishes for sister's. Also put leaves into dirt to start more plants. I love to fool around with the African Violets and some day would like to experiment with crossing some. Russell got me a book that tells how and I am interested in trying to do the work. I am always looking for a different colored Violet plant. I have and know there are many as I only have eight different colors now. Also transplanted a Swedish Ivy for Grace to get her started in house plants now that she is home to care for them.

Went for a nice long ride on Wednesday as had an appointment with the rheumatologist in Farmington in the middle of the forenoon. It is rather a pretty ride over through that part of the country. Got back to Rumford and as it was getting late, stopped and had lunch. As usual when you go to the doctor, there is new medicine to get and got some at a drug store in Rumford.

Headed out again on Thursday to see a doctor in Bridgton and report what I had found out on Wednesday. Also got a treatment for my back and a shot for pain. I should be a good pincushion by this time, as many shots as I have had for allergies and all the other ailments put together. I tell folks it doesn't hurt anymore, I'm too used to them for them to hurt.

Of course, we had to go to wash on Friday as we hadn't had time the rest of the week with all the running around. Had to have a few groceries and do a few other errands too, so Russell didn't get to the garden until into the afternoon and the started pulling pea vines and picking the peas. Finished the job on Saturday, so put up a few more bags of peas for the winter.

Had a caller on Friday too. J.

B. Emery called to see what good-ies we needed from his Rawleigh products. He doesn't get any younger, but is still the same guy we all knew years ago on the farm when we were growing up and it is good to see him still going strong for one so young.

Russell has such good luck raising zucchinis that I wanted to find a way to use some of them other than in bread, which is real good, so looked through a book he has on cooking them and tried zucchini au-gratin for lunch. It was real easy to make and tasted good too, soon I hope to try a few more of the recipes in the book. To me, zucchini alone has no flavor, but with other things mixed in, it can be pretty good. If you haven't tried zucchini relish, you should. It is most tasty, but you have to have red peppers to make relish pretty, so by that time zucchinis are rather large and it doesn't take many to make a batch of relish. We like it with hot dogs and hamburgers better than the boughten relish any day.

Russell has been looking for an electric lawn mower and on Saturday night we got a call that Myrna's (Peggy's daughter) father-in-law in Hermon had one for sale. Sunday morning Russell wanted to know if I'd like to go get it that day as it looked like it would be hot but good weather. I said sure, so we called Peggy in West Bethel to see if she would like to go along to drive and then called the Whites in Hermon to see if they would be home. As they were, we headed out with my car and went to Bethel to get Peggy, then up Rt. 2 to Newport where we had lunch and go onto the turnpike to go the rest of the way as we had been directed. If we had known just where we were going, we could have continued on Rt. 2 and saved a little mileage, but as it was, we had a very good drive and a nice visit with the folks before starting for home in the middle of the afternoon. Russell and I didn't get home to have supper until about seven and we were tired even though Peggy had done all the driving from the time we picked her up in the morning. Thank God, my car handles easy and rides good, had plenty of room in the trunk for the mower and if we had wanted to stop at yard sales, we couldn't have gone on a better road as there were plenty of them along the way. However, we were good and didn't stop at even one of them, though we did slow up at one or two to see if they had anything that looked real tempting. We saw many quilts, dishes, footwear and most anything else you could mention lined up for sale in the different yards or garages. It was a grand day for the ride, found very nice people to visit and a nice restaurant to have lunch in. Even had an ice cream on the way home, so what more could one ask for! Just hope others had as good a day as we did.

We were terribly sorry to hear of the accidents on Saturday when three lives were taken, one at each accident as I understand. It is a great loss to the families involved and our sympathy goes out to them. God Bless them all.

Children's Center

Many learning experiences at the Center this summer have been fostered by the excellent variety of field trips. Last week the children traveled to Bumpus Mine in Albany and returned with beautiful treasures. Collections had some of Oxford County's best known minerals, mica, quartz and feldspar. This week children will be getting a tour of Bonema's Pottery. They have made their own clay creations and will take them to the kiln, and then paint the finished product.

Three year old Eva Yates of Bryant Pond is Star of the Week this week. Last week three year old Jenny Mae Wheeler was Star. Both girls are delightful and interesting individuals and kept staff and children entertained as they shared who their families are, and what their "favorites" are. All children help work on star posters and the "stars" themselves bring in personal photographs for the final touch.

Commander Earl Merrill, Adjutant Charles Mason, Chaplain LeRoy Patten, Historian Herb Lyon and Service Officer Warren Smith went to Andover on Saturday to carry the Post colors at the head of their Old Home Day parade.

Unit President called an executive board meeting Wednesday afternoon at her home, to transact urgent business. They announced that the first Fall meeting, Sept. 6, will be a picnic at 5:30 p. m.

Music Chairman Mary Lyon will present a special musical program at the Sept. 20 meeting, featuring the junior members. Her program last year was a prize winner, so don't miss this one. A reminder, also, that the annual dues can be paid now.

Life Member Arthur Wyman, whose home is in Key West, Fla., is a patient at the Veterans Hospital in Togus. He finds it lonely there, so mail might help. His address is #200 Med./Surg. Bld., Room 326-3 South-Veterans Hospital, Togus, Maine, 04330.

The Big Bucks Party Aug. 6, appeared to be a success. Ladies working on the refreshments were Leah Deegan, Mary Lyon, Grace Smith, Vera Cross and Triana Mallory. Their freshly made Italian sandwiches were delicious.

times ambulance attendants have to walk or run distances. At times it is even difficult to get through with the ambulance. There are times when we call the doctor or physician's assistant and they are usually later coming as we have to wait until we get to the scene before calling as we often do not know how many vehicles are involved or how many people have been injured.

If there is a lot of traffic and cars blocking traffic it is difficult for the attendants, the doctor or physician's assistant to get close to the scene.

If you are not connected with the ambulance, fire department, police or have had first aid please do not park to hinder the work of the rescue personnel. It is not always possible to get the ambulance off the road, out of traffic, as we need it close to be able to get at our equipment.

The North Pond Sailing Association held a regatta Sunday with a nice day, light breezes and a good turnout. The winners were Walton Hathaway, two races, and Ted Chadbourn of Bethel. Next Saturday evening at 6 p. m., rain or shine, the North Pond Sailing Association will hold a social hour and pot luck supper at 6 p. m. at Davis's camp on Round Pond. All sailors and mates are invited. The last regatta of the season will be held Sunday at 1 p. m. on North Pond.

Of interest to the Greenwood Ball Clubs: Coaches Joan and Bill Roberts would like to extend their appreciation to the other coaches, members and families who contributed so much to the Greenwood Family Fun Day held last Saturday. This event was well attended by about 200 ballplayers and their families, who enjoyed four ball games and a tasty cook out.

The little ones especially enjoyed the ice pops. Especially appreciated was Hilda Eastman who helped cook throughout the day. Evelyn Johnson who helped with the cleanup and let the club use her freezer, an unknown lady who helped cleanup during the games, and Bill Jordan who hauled the trash. The Farm Club is asked to return clean uniforms to the coaches by Aug. 13.

The Greenwood Auxiliary Flea Market had to be cancelled this year due to lack of interest but the auxiliary did put on the dinner for the Woodstock Senior Citizens. Those working on the dinner last Thursday were Mary Stone, Sally Melville, Lorraine Mills, Cheryl Young, Carolee Roberts and Flossie Bernier.

Ricky Roy of Locke Mills was among those helping the Bethel Red Sox win their championship game last week. Rick got three hits. His mother, Ann Roy, got a hit of a different kind when a thrown ball struck her in the mouth, making a cut requiring several stitches. She didn't let it get her down, however, and the whole family left last Friday for a week on the coast.

Our sympathy goes to all who were involved in the rash of accidents last week end and especially to those who lost loved ones. Our prayers go up for all who are still trying to recover, and our appreciation to all the police and ambulance attendants—it's a difficult and often thankless job and we all should be grateful to those who serve.

MIDDLE INTERVALE MEETING HOUSE SOC. MET AUG. 6

There was a very interesting and active meeting of the Middle Intervale Meeting House Society on Monday evening, Aug. 6.

The meeting was opened by President Suzanne Fiske, following by the reading of the Secretary's and Treasurer's reports. Everyone was pleased to learn that the Endowment Fund was increased by \$250 through the generosity of an anonymous donor.

The building committee reported a "temporary fix" on the cupola by Danny Grover and that he would complete the repairs as soon as possible. Since no repairs to the roof area are necessary, painting the woodwork and pews will be the next order of business. Dennis Wheeler, who did such an excellent job on repairs to the ceiling and walls of the Meeting House, gave a rough estimate for the painting. In line with the overall restoration program, a Mr. Frank Beard, who is with the Maine Historic Preservation Commission, is scheduled to meet with the Restoration Committee to offer suggestions and recommendations.

Plans were also finalized on the two big projects scheduled for this week end. The food sale will be located on the side lawn of the Dr. Moses Mason House and starting time is set for 1 p. m. — And at 3 p. m. it's curtain time at the Middle Intervale Meeting House for the annual concert. This program is being produced by Stephen T. Seames of Locke Mills and it's like having "Broadway in Bethel"! There are posters being made to remind the public of both events and are being strategically placed around town. Everyone is invited. A free-will offering will be taken.

The meeting was adjourned at 8:15 p. m.

The descendants of Edgar and Delilah Morgan will meet at the old Morgan Homestead on the Patch Mountain Road, Greenwood, at 11 a. m., on Saturday, Aug. 11, 1984. In case of rain the meeting will be held at the Town Hall, Bryant Pond.

FREE AND REDUCED PRICE MEALS AND FREE MILK GUIDELINES

Family size and income guidelines for free and reduced price meals and for free milk in Maine schools have been made available from the United States Department of Agriculture.

Both public and private schools participating in school breakfast, school lunch or school milk will be distributing a letter to families of all attending children during the first week of school, according to Miss Gene M. West, Director of School Nutrition Programs for the Maine Department of Educational and Cultural Services. The letter will explain how families may be eligible for free or reduced price benefits.

All applications will be subject to selection for family size and income verification required by federal law, says Miss West. "If people apply for the benefits under the program, they must include Social Security numbers for all adult members of the household. Social Security numbers may be used to verify income information on the application. This is required by Section 9 of the National School Lunch Act through which the programs receive federal funds."

Miss West said that beginning with the fall term children from families whose yearly income total is at or below the levels shown below will be eligible for free and reduced price meals or free milk at schools offering only milk:

Income Guidelines	
Family Size (including adults)	Income
Monthly	Yearly
1	\$ 527 ... \$ 6,318
2	709 ... 8,502
3	891 ... 10,686

6	1,437 ... 17,238
7	1,619 ... 19,422
8	1,801 ... 21,606
For each additional family member add	182 ... 2,184
REDUCED MEALS	
Family Size (including adults)	Income
Monthly	Yearly
1	\$ 760 ... \$ 9,120

In most cases, foster children are eligible for benefits and an application should be completed for each foster child, she added.

The federal and state rules prevent discrimination because of a child's age, race, color, sex, national origin, or physical or mental handicap. Anyone who believes they have been discriminated against should write immediately to the Secretary of Agriculture, Washington, D. C. 20250.

Miss West noted that changes in family size or employment status may make children eligible for additional benefits. Such changes should be reported and a new application filed. She stressed that all children in a family receive the same benefits. Recipients of free and reduced price benefits must notify school officials of any decrease in household size, or increase in income of over \$50 per month.

All parents of Maine school children will receive a letter about the school's breakfast and lunch programs or the milk program soon after the first week of school. A copy of the application for free and reduced price meals or for the

free milk program will be attached to that letter. Parents are requested to read the letter carefully, complete the application, and return the application promptly to the school. It is beneficial to the school to receive as many of these applications as possible.

The information provided on the application is confidential and will be used only for the purpose of determining eligibility or for verification of information on the application.

Walking With Jesus Christ

"And he (Jesus) said to them all, if any man will come after me, let him deny himself, and take up his cross daily, and follow me." Luke 9:23 - vs. 2: "For whosoever shall be ashamed of me and of my words, of him shall the Son of man be ashamed, when he shall come in his own glory, and in his Father's, and of the holy angels." Three times in the Gospels did Jesus speak so—Matt. 16:24-27 and Mark 8:34-38. Matthew 16:27 "and then he shall reward every man according to his works." And Luke: "he will be ashamed."

These words were spoken by Christ for us today and tomorrow unless Jesus—the Son of man—Matt. 25:31 "shall come in his glory, and all the holy angels with him" vs. 33 "And he shall set the sheep on his right hand, but the goats on the left." Verses 34 and 46 tells of those to inherit the "kingdom" and the ones to go away "into the everlasting punishment."

Consider the parable of the talents—Matt. 25:14-30—vs. 21 and 23—"Well done, thou good and faithful servant, enter thou into the joy of the lord." Chapter one of I Cor.—The Lord tells us that Christians are sanctified in Christ—that the weakest, most ignorant and fallible believer has the same relationship in grace as the most illustrious saint. The New International Version says: "we do not lack any spiritual gift" — in the Church. I Cor. 12—speaks of spiritual gifts and their use in love. There are diversities of gifts and, we each have one or more—and our job is to know the gift God has given to us

and to use them for His glory. One wonders if our angel peeking over our shoulder is ashamed of us; as we miss an opportunity to tell others of our Lord and Savior, Jesus Christ!—well, we can guess so. My how the Angels of God would love to give us a push and stir us up.

Johnny Appleseed has his name recorded in history books—hm, wonder what record is kept of us? Hebrews 13: 20-21—"Now the God of Peace, that brought again from the dead our Lord Jesus, the great Shepherd of the sheep, through the blood of the everlasting Covenant, make you perfect in every good work to do His will—pleasing in His sight through Jesus Christ, to whom be glory forever and ever. Amen."

"And they went out, and preached that man should repent." Mark 16:12.

NORTHERN LIGHTS PLANNING "MUSICAL SUPPER" FOR THURSDAY, AUG. 23

The Northern Lights, an inter-denominational and non-profit Christian singing group from the Bryant Pond area is making plans for another public "Musical Supper", Thursday, Aug. 23, beginning at 5:30 p. m. at the Jackson-Silver Legion Hall in Locke Mills. An interesting assortment of local musical talent is being assembled by Ernestine Riley, while Susan Glines is heading up the planning for the supper menu.

This year the proceeds of the event will be lovingly donated to the Jack Roberts family who were involved in a tragic automobile accident last Saturday. Mr. Roberts, a tenor and sound technician has been with the group almost from its inception six years ago. More details next week.

The helicopter, belonging to Carson Helicopters, took about 15 minutes for the

Gladys Wilson told about the applesauce dish which Allan Gibbs brought with him from Massachusetts on his motorcycle. When Albert Gibbs was a young boy, he liked applesauce so well that he retrieved the dish filled with applesauce from his burning home, hid behind a rock, and watched the house burn to the ground. The dish was the only material object saved. Some members of the family agreed that a love for applesauce MAY be hereditary.

contemplates through her drowsy eyes the season's harvest.

August is the drifting fragrance of new mown hay, mounds of potatoes, butter beans, the splash of sumac among the pines, calling ducks winging against an evening sky, the ponds and the flower beds.

August, the heat of the summer arrives to be soothed by breezes singing a harvest song to the fertile soil and fields that are merry where crickets dance.

August, with the mumble and grumble of buccaneering bees at work that never ends.

August, with the wink of the blue eyed gentian, as it turns its pretty head to admire the asters, goldenrod, and swooping of the swallows.

August is generous with her gifts. Her ponds are tabled and set with lily pad plates and lily cups close by, while cattail candles are set up in stands high above the reeds, Giddy troops of arrow heads claim the background, while the haughty pickerel-weed disdainfully ignores them all.

Greenwood City

— **Mrs. Collista Morgan, Corres.** —

August in Maine is many things. First of all we realize that summer is slipping fast away. I have become conscious of it, as I walk the road, visit the fields, or boat the pond. Even the birds are in loose and restless groups. The bobolinks and the red breast have gone.

I saw a few monarch butterflies flit by. Strange that so fragile a thing should migrate. Among them I spied a cabbage butterfly and a few sulphur yellows. Do these migrate too? I have never traced this question down. So many unanswered questions and I have little hope of ever catching up on them.

Every August seems offers some new delight. Fruits are slowly ripening and flowers bloom the best. Queen Ann's lace dances in the sun. Nature gives it full and perfect bloom.

It's the month when my thoughts turn back to a little boy, with his fishing pole, perched on a rock beneath a sun washed sky. I watched this happy lad with whistling lips and a carefree heart, as he baited his hook and cast it over and over again, a picture of contentment. The scene and sound of fishing time made glory of the day, and this little fellow felt that heaven wasn't far away. Years have flown but I sometimes like to retrace those steps — down "Memory Lane" to catch the spirit of steadfastness and deep contentment and to see the shining eyes, as I again think of a stroll with him at his boyhood home.

There was so much lasting beauty among the common things. But the country is something to run away from or to cling to; depending on the person.

The last stop was Yellowstone National Park, where she saw Old Faithful, many geysers and paint pots, as well as the Grand Canyon of the Yellowstone, which included many waterfalls. She saw only one black bear, as efforts have been made to remove bears from the park. She saw over 500 elk and about 100 bison. The Olympics are on TV this week and many are watching them. The USA is doing well so far.

I just heard on TV that shoplifting had risen 5%. I just can't understand how people can lower themselves to such a low profile as that. As for me I am ashamed of thieves and liars. They go hand in hand and can lead to more violent crimes. Wake up you guys or ladies and turn over a new leaf. God is watching.

It's been a good many years since there has been two different dances in town on the same night. The Mollockett Mixers square was very well attended at the town hall and the "Firemen's Cabaret" held in conjunction with the dedication of the new fire station was very well attended also. Also the after hours "concert" on the band stand was heard far and wide. I can't say how well it was enjoyed by the surrounding residents.

Mr. and Mrs. Archer Poor have returned home after traveling nearly two months across the United States and parts of Canada by camper.

The parade on Saturday was a grand success, lovely floats, antique cars, horses of all descriptions, ponies, besides all the Cub Scouts and Boy Scouts, tractors and others too numerous to mention started a grand day of celebration of Andover's 180th year. The Common was alive with all the activities, plus the flower show and flea market. The woodsman's contests were greatly appreciated. All those events plus Mather Nature gave us a beautiful hot day. There were a few mishaps which kept the Rescue Unit on their toes. These were topped off by the two dances at night which makes some look forward to next year.

Notes from NTL

The most unusual of NTL Institute's seven new programs in human resource development this week is called Leadership for Development, a program designed specifically for international participants.

Top-level agricultural, marketing, economic, cooperative and family planning officials are among the 17 participants in this unique NTL program. Countries that are represented include Uganda, Honduras, Pakistan, Colombia, Egypt, Malaysia, Mali, and Upper Volta. Also attending are several persons from the United States who work in these countries.

The two-week session is designed to train men and women from Third World countries in the leadership skills necessary to implement development programs on national, regional and local levels. It is directed by Dick and Marion Vittow, who since 1976 have conducted similar training programs for government and private organizations in the United States and Third World countries. They are assisted by staff members Jack Gant, from Florida, and Sabi Ranting, an agricultural administrator from Malaysia.

NTL's Sunrise Seminars are continuing to be offered Tuesday through Saturday mornings at 7:30 and, as always, are open to the general public. One of these sessions to be given the week of Aug. 13, is on development in Third World countries. For further information, call the NTL Office in

The championship game between Bethel Red Sox and Rumford Point was Brian's last Little League game. The Red Sox won with a score of 4-3 which was exciting. In the years of playing farm team and Little League I don't think Brian has missed a game or a practice. I missed one of his games a year or two ago.

It's been quite a season. Brian played ball for Telstar and Little League and Carl played Colt League for Greenwood until his glasses had an accident. That usually made four games a week plus practices. Good thing I like baseball!

NOTES FROM THE

WOODSTOCK HISTORICAL SOC.

Thought: "What a noisy world we quiet people live in?"—Nathaniel Hawthorne.

The following poem was written by Curator Larry Billings on our museum. He wanted to share it with our readers and members:

The Woodstock Museum
The building is strong
And straight and square.
Collections have grown and grown.
The South Woodstock Church gave
An organ and chairs;
The Russells a treasure of goods,
Pictures abound and tools and books—

The piano and dishes are there—
How we have prospered with time!
For time is our element you see—
The test of culture and man.
We cast a shadow straight and long
Which will last for a long, long time.

Please note also, that Larry has

OWNERS REMINDED OF SAFE MOPED OPERATION

The State Police remind owners of the proper operation of mopeds on Maine roads.

"With the increase of mopeds, it is imperative for safety's sake that moped owners and other motorists are aware of the requirements for proper moped operation," said Colonel Allan H. Weeks, chief of the Maine State Police.

To operate a moped, a person must have a valid operator's license of any class or a permit. The moped, registered for a \$5 fee, must be operated to the far right except to make a left turn, be operated in single file only and have the headlight on at all times. A moped may not be operated on an Interstate highway. Also, a moped must be inspected once each year at either a motorcycle or motor vehicle inspection station.

The State Police Traffic & Safety Division advises of the items that must be included in the annual moped inspection: single or multiple beam headlight, brakes, horn, rear view mirror, exhaust system, taillight, rear plate light, speedometer and odometer.

Plan into reality would be contingent upon actual FAA construction funding approval.

Martha Sweatt presented data to the Selectmen acting as Sewer Commissioners, in support of her request to have the Town Wastewater Treatment Facility pay partial costs incurred last month in connecting her house to the sewer. Treatment Plant Superintendent David Bartlett responded to the Commissioners' questions about aspects of locating the sewer connector stub. The Commissioners postponed making a decision until their Sept. 4 meeting to consider the information presented.

The Board acted on a request from John Brown to the Municipal Facilities Committee to construct a new darkroom in the Citizen Printers Inc. area of the Cole Block. To save costs for the Town and to benefit the needs of the users, the Facilities Committee recommend that the Town build the shell of a darkroom leaving its fitting out to the user. The Selectmen unanimously passed the Facilities Committee recommendation with funding, estimated at about \$500, to come from Cole Block renovation funds approved at the June Town meeting.

In other action, the Board approved the Manager's plan to conduct a self-evaluation of public services to preclude discrimination against the handicapped, signed a quit claim deed for property of Alice Rosenfield, accepted the plan of Hunter-Ballew and MDOT road engineers to construct a solid curb along the north-side intersection of Main and Elm Streets, and signed the annual certification forms declaring that Local Road Assistance funds from the State, will be used for the maintenance or improvement of public roads.
